Creative Thinking Never Ends

Benefits:

Art is such a fun thing! It can be super personal and can be used in so many different ways. I would love to sit down with you whether that be in person or over the phone to create something that is unique to you. This can be something for your company, something for a friend or significant other, or even something for yourself! I like to do a big initial consultation to get a feel for what you are wanting created, and who it's for. It's also good to give me a date you need it by! After that, I like to create a few variations of the idea you gave me and have a follow-up consultation. This acts as a time to give me feedback and any new ideas! After this chat, I will get back to work to create a final piece for you! I can't wait to start creating something amazing with you!

By working with me, you are able to create the perfect product you are looking for. You also have the ability to have something that nobody else will have. I can tell you from experience, customers love when things are unique and personable from products. It makes it feel more special and in a way, more high class. I'm excited to work with you!

Rates:

Here are my base rates! If you have any questions concerning prices send me an email. If you are interested in creating something with me, you can also send me an email or even text or call me and we can set up a consultation time!
